# Chapter1 : What are colors?

*Colors are everywhere! They make our world bright and beautiful. But what are colors, really?*

*When light shines, it creates colors that we can see. Imagine a rainbow! It has many colors: red, orange, yellow, green, blue, indigo, and violet. Each color is special and can make us feel different things.*

## Let's Learn Some Colors!

**Red:** This color is like a juicy apple or a bright fire truck. It can make us feel excited!

**Blue:** Think of the sky on a sunny day or the ocean. Blue is calm and cool.

**Yellow:** This color shines like the sun! It makes us feel happy and cheerful.

**Green:** Like grass and trees, green is fresh and lively.

**Purple:** This color is like grapes or a beautiful flower. It feels magical!

**Activity:** Can you find something red, blue, yellow, green, or purple around you? Point to it and say its name!
